PATIENT RESOURCES

Burzynski Patient Group

www.burzynskipatientgroup.org

We consist of current and former patients of the Burzynski Clinic, their families, friends, and supporters. We are a group that is filled with individuals who have the determination to fight and survive.

The Burzynski Patients Group's mission is to raise public awareness of Dr. Stanislaw Burzynski's breakthrough treatment for cancer using Antineoplastons and gene-targeted therapy. We also provide useful information and emotional support to cancer patients and their families. Our website is a place where Dr Burzynski's patients can share their personal stories with one another and the world.

Setting Them Free

www.settingthemfree.org

A 501(c)(3) non-profit cancer foundation. Our mission is to help cancer patients and their families afford critical, but uninsured, medically related expenses through on-line fundraising and direct financial assistance.

Setting Them Free, has chosen to support patients seeking cancer treatment from the Burzynski Clinic because of their outstanding success in overcoming cancer.

Give Forward

www.giveforward.com

GiveForward offers individual **fundraising** pages where friends and family can provide emotional and financial support to a loved one navigating a medical crisis. Since 2008, GiveForward users have raised over \$10 million for things like expensive co-pays, alternative therapies, travel to treatment, even the household bills each month. And while the money is important, most of our users say that the words of support and hugs posted on their pages often mean more than the money itself.

If you, or someone you love is facing a medical crisis and you need financial assistance, we want to be part of your support team. Call us anytime and speak to a fundraising coach who can answer your questions and help you get your page started: 312-322-1200.
